

# **Clinical Research Innovation KFC Clinical Research Management Group**

Tesheia Johnson  
Yale University, YCCI  
Co-Chair Clinical Research Management Group

**October 2009**

# Clinical Research Management Group

- Tasks
    - Improve protocols for studying CRM processes
      - Focus on data points relevant to process improvement
      - Obtain process maps and feedback provided from CTSA sites
      - Incorporate recommendations from Metrics, Analysis and Mapping Group
    - Develop routine of recording data in centralized data repository (REDCap)
    - Plan to display process data on public website
- (continued)*

# Clinical Research Management Group

- Tasks
  - Explore methods of implementing change
    - Champions of Change to form focus groups to choose helpful methods
    - Field work by Mayo and Yale with respective administrative supplements
    - Analysis of Cystic Fibrosis data and mapping project (U of Washington administrative supplement)
    - Lessons learned from sites with short turn around time
  - Review alternative sources of industry and consultant data on clinical research management (Blumenfeld, IOM, CenterWatch)
  - *(continued)*

## Clinical Research Management Group

- Compare electronic management systems for protocol and contracts processing
- Track potential improvement strategies
  - Future protocols
  - Repeated sampling
- Plan 3<sup>rd</sup> Annual CRM Workshop
  - Include broader topics ~ recruitment, retention, and quality measures for human subjects protections.
- “Reward” CTSA Sites that Succeed
  - Suggestions as to how to do it?
